Title : How to get a better webcam for Online Class

Link Video : https://www.instagram.com/p/CIAT50aAyXn/?utm_source=ig_web_copy_link

Hello everyone, this time I will give you some tricks to get a better webcam for the online class, it will need a USB cable, a handphone, and of course a laptop. The first is to install the droid cam application on your handphone via play store and on your laptop via the website www.dev47.com by clicking download windows client, the second is to open the application on the handphone and the laptop, then connect the handphone and laptop with a USB cable. and finally is to click the USB connection on the droid cam in the laptop, so here we are with getting a better webcam for an online class today
